### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Lewellyn on 3/30/06.

The application has been amended as follows:

Claims 20,24,30,34 and 36 are cancelled.

In claim 8, at line 2, before, "at least one pressure restraint", 'said' has been deleted.

#### ***Allowable Subject Matter***

Claim 8,10,25,37 and 45 are allowed. Since claims 25 and 45 are generic to the withdrawn claims 15-19, 26-29 and 35. Claims 15-19, 26-29 and 35 are now rejoined. Therefore, claims 8,10,15-19,25-29,35, 37 and 45 are now allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record either taken singularly or in combination fails to disclose a flat heat exchanger plate comprising at least one pressure resistor member attached to an interior surface of one side sheet; and at least one flow divider positioned within the open interior space to create a heat exchange medium flow path, wherein the flow divider is a strip of material having at least one bent and includes at least one hole formed there through along the center line and the pressure resistor member is received by at least one hole to position and retain the flow divider within the interior space.

Art Unit: 3753

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*
